

Your pet or live animal's health & safety are our top priority.

We want your pet or live animal shipment to be safe during travel. That is why we have put aircraft type restrictions in place and created this aircraft crate/kennel compatibility overview.

AIRCRAFT RESTRICTIONS AND AIRCRAFT CRATE COMPATIBILITY

CRATE OVERVIEW			AIRCRAFT TYPE		MAX. ALLOWED CRATE SIZE
Sizes	Series	Dimension (in.)	Airbus	350-900	All crate sizes

Please note that Delta Cargo currently embargoes any crate size larger than the 300 series for personal pet shipments except for active U.S. military or Foreign Service Officers (U.S diplomats) traveling with permanent change of station orders, or for commercial live animals' shipments approved to use a modified pet container in accordance with IATA LAR for the animal species. For more details about current embargoes and restrictions, please refer to www.deltacargo.com.

1) All warm-blooded live animals' shipments are prohibited for transport on all B757s to/from Europe.
