

Animal safety during transport is our top priority.

To ensure the safe and timely arrival of pets into AMS and CDG, a Customs Clearing Agent is required for all pet shipments with final destination AMS (Amsterdam) and CDG (Paris). This requirement is in addition to the use of an IPATA agent for pet shipments and does apply to commercial and military shipments (even though these shipments do not require an IPATA agent). Contact Delta's Live Animal Desk for questions at: liveanimals@delta.com

AMS Clearing Agents	CDG Clearing Agents
