

# SPECIALIZED PHARMA

## INTRODUCING 3 NEW PHARMA STATIONS TO OUR NETWORK

We are excited to share a notable milestone in our ongoing efforts to expand our Pharma footprint and to continue providing even more options to safely transport temperature-sensitive shipments. Delta Cargo is adding 3 new Pharma stations to our network:

- Philadelphia, Pennsylvania (PHL)
- Chicago, Illinois (ORD)
- Raleigh, North Carolina (RDU)

All three stations feature temperature-controlled storage and active container management capabilities.

With the addition of PHL, ORD, and RDU, Delta Cargo's worldwide network now features 44 audited stations operating in compliance with GDP and CEIV standards.

With priority boarding, quick connection times, and tailored options to meet specific temperature requirements, Delta Cargo is your partner in ensuring the safe transport of your temperature-sensitive shipments.

### PHILADELPHIA, PA (PHL)

#### STATION CAPABILITIES
